

Happy New Year!

Many thanks to everyone involved in supporting HAT and its ongoing activities in Tanzania. Our work would not be possible without the ongoing support of our members and supporters, so a big thank you from us here at HAT!

Nyhinilla School Latrine Project update

In 2017/2018 our funding has been supporting the construction of new latrines and water pumps in a school in Nhyinilla, rural Dodoma. HAT funding also supported the implementation of health and hygiene programs in the school, teaching the importance of hand washing and good hygiene practices. Such education has a flow-on effect in the community and helps improve overall health within the broader community outside the school. Our financial support of this project has ensured its success.

Recently, the Tanzanian government made school free, which is a fantastic initiative by the government to help educate its citizens. As a result of this, there have been an unprecedented amount of new enrolments at the school in Nyhinilla. The latrines and toilet blocks we built are therefore no longer large enough to deal with the increased student volume. We are therefore trying to raise further funding to build another set of toilets and latrines alongside the current ones recently completed.

We have set up a go fund me page to raise more funds for this, and any donation, large or small, is greatly appreciated, both by us here at HAT and also by the community at Nhyinilla.
